SUMMARY

Software Engineer with 13+ years of experience, focused on cloud-native backend and full-stack development. Currently shipping C#/.NET microservices, Vue.js frontends, and AKS-deployed applications at a regional bank, with end-to-end ownership across architecture documentation, CI/CD pipelines, and production operations.

EXPERIENCE

- Software Engineer** Morristown, NJ | Hybrid
Valley Bank June 2024 – Present
 - Built and deployed a full-stack internal file viewer as the sole developer within a four-week deadline, replacing a legacy desktop application with a Vue.js, .NET 10, Azure Blob Storage, & SQL Server solution featuring custom UI design, filtered search, pagination, chunked file streaming, and SSO, deployed to AKS across five microservices following an API-led connectivity architecture.
 - Delivered 8+ C#/.NET Azure Function microservices powering a product health notification system, using Cosmos DB for storage, built with Terraform & Azure DevOps CI/CD pipelines and 80%+ unit test coverage.
 - Developed a customer search microservice on the Hotlist supporting multi-criteria queries across regulated financial datasets using SQL Server, repository patterns, and layered validation.
 - Produced an end-to-end technical solution design for an internal chatbot with no prior documentation, then deployed it to AKS using Helm charts and Azure DevOps CI/CD pipelines.
 - Authored OpenAPI specifications across all developed microservices, establishing consistent API contracts and enabling seamless cross-team integration.
 - Promoted from intern and retained through two organizational restructurings, recognized for technical initiative, cross-functional documentation, and institutional knowledge.
- Software Engineer** Newton, NJ | Hybrid
Thorlabs, Inc. July 2023 – May 2024
 - Led end-to-end redesign of Thorlabs Toolkit, a cross-platform optical calculator app (iOS/Android), modernizing a legacy codebase and adding new optical computation features to meet current platform standards.
 - Owned the full App Store and Google Play release lifecycle, delivering multiple production deployments.
- Senior Web Developer** Castleton-on-Hudson, NY | Remote
HIPB2B May 2013 – March 2023
 - Owned end-to-end production of 50–100 custom-designed campaign landing pages and HTML emails per month across 100+ B2B client accounts, handling layout, CSS, and copy for each.
 - Maintained and iterated on the company website in WordPress, managing frontend updates, plugin management, and content workflows, with additional content publishing in Webflow.

SKILLS

- Languages:** C#, .NET (8/10), Python, SQL, NoSQL, TypeScript, Vue.js, HTML/CSS
- Cloud/DevOps:** Microsoft Azure (Functions, Cosmos DB, Blob Storage, DevOps), CI/CD, Docker, Kubernetes (AKS), Helm, Terraform
- Development:** Clean Architecture, Microservices, REST APIs, OpenAPI, Agile/Scrum, Streamlit
- Testing/QA:** Unit Testing, NUnit, Moq, Logging, Debugging, Postman, Bruno, Snyk
- Collaboration/Documentation:** Azure DevOps, Git, Confluence, Lucidchart, PR Reviews, Mentorship

EDUCATION

- Western Governors University** Millcreek, UT
Bachelor of Science, Computer Science
- Hudson Valley Community College** Troy, NY
Associate of Applied Science, Computer Information Systems
